BADGE MAKER

THIS IS THE BADGE MAKER OFFLINE TOOLKIT

We have found that creating badges with your hands is a great way to get people to engage and think about Open Badges. These tools have worked well with all ages, interests and backgrounds.

We recommend you print the badge shapes on coloured paper or card so you can mix and match different colours and shapes. For Mozilla Festival we laser cut the shapes but it's just as fun to cut them out by hand.
We hope you enjoy using these tools, and don't forget to tell us how it went.
